Projects

Key locker, Associated with A.V.Parekh Technical Institute,Rajkot 602

January 2023 –
May 2023

We have created secret **keylocker**  application, in which client need to initially **validate** their mail for Register (this done using **firebase**) and presently client can add different **Item** like secret key, notes, bank subtleties, documents , and so on.

SIMON Game, I have made this game for conceptualizing, where we need to choose a blaze block , in each level it streak another block , we want to choose all glimmer block from starting level , in the event that we select wrong succession, game will be end.

placeStar, Placestar is an innovative university platform designed to streamline the placement process and manage exam-related activities efficiently. It provides students with seamless access to placement opportunities, exam schedules, and resources, all in one place. With a focus on enhancing student experience and success, Placestar stands as a comprehensive solution for academic and career growth.

May 2024 – June 2024

KhetShayogi, KhetSahayog is an innovative platform designed to facilitate seamless connections between farmers and laborers, simplifying the process of hiring agricultural workers. Additionally, the platform enables farmers to rent out their equipment to others, promoting resource sharing and cost efficiency within the farming community. By bridging these gaps, KhetSahayog empowers farmers to optimize their operations and fosters collaboration within the agricultural sector.

August 2024 –
August 2024

ValU-Forcast, The new project is a dynamic platform designed to connect job seekers with both long-term employment and short-term service opportunities across technical and non-technical fields. It caters to diverse skill sets, offering tailored job and service listings that meet the specific needs of individuals and organizations. With a user-friendly interface and robust search capabilities, this platform aims to bridge the gap between talent and opportunity, empowering users to find the right fit for their skills and goals.

June 2024 – present

Club-Sphere, The new program unifies all university clubs into a single platform, providing a centralized hub for students to explore and engage with various clubs. It offers insightful details such as club rankings, member profiles with their areas of interest, and other key metrics that foster collaboration and competition. This platform is designed to enhance the club experience, making it easier for students to find communities that align with their passions and for clubs to showcase their achievements and attract new members.
