## PROFESSIONAL SUMMARY

Software developer focused on Python backends and computer vision, with experience in industrial inspection, REST API architecture, and backend team leadership.

## TECHNICAL SKILLS

**Languages & backend:** Python, JavaScript, SQL, Flask, FastAPI, Django, Node.js, Express, REST APIs, JWT

**Vision & data:** YOLO, OpenCV, PyTorch, PostgreSQL, MySQL, SQLite, MongoDB, Supabase

**Tools:** Git, Docker, Linux, Azure DevOps, CI/CD, Postman, Beautiful Soup, Selenium

## PROFESSIONAL EXPERIENCE

**Software Developer** | Microble Technologies · Apr 2026–Present

- Develop industrial inspection pipelines for insulator defect detection with YOLO and OpenCV; own dataset preparation, annotation, augmentation, model training, evaluation, and deployment.

**Python Developer** | Empire Circuits LLC · Sep 2025–Apr 2026

- Built PondGuard's detection and response software, an OpenCV PCB image-stitching pipeline, and ThingsBoard/Grafana monitoring dashboards backed by MQTT.

**Python Developer** | Infotact Solution · Apr 2025–Jul 2025

- Built Droplify with Flask, SQLite, Beautiful Soup, and Selenium, including product-data collection, analytics, and automated price-drop alerts.

**Backend Developer & Team Lead** | CHARUSAT University · Jun 2024–Aug 2024

- Led a four-engineer backend team on Placestar: Node.js/Express APIs, MySQL schemas, JWT access controls, sprints, and reviews. Supported a live examination with 100+ students.

## PROJECTS

**PondGuard** | Python · Flask · YOLO11

Owned bird-detection software with event capture and automated sprinkler and red-beam deterrents.

**Placestar** | Node.js · Express · MySQL

Built placement/exam APIs with Wi-Fi restrictions and single-session controls; supported 100+ students.

**Droplify** | Flask · SQLite · Selenium

Solo-built four-platform price tracking, analytics, and email alerts; validated 25+ product pages.

**AMC Connect** | FastAPI · PyTorch · YOLO

Built civic-complaint APIs, GPS validation, image screening, and LLM-generated descriptions.

**ClubSphere** | Node.js · PostgreSQL · JWT

Led club-management APIs, database design, and authentication; piloted at CHARUSAT University.

**Worker Location Management** | ThingsBoard · Geofencing

Configured zone/inactivity rules and alerts; validated monitoring behavior using RSSI signal data.

## EDUCATION

**B.E. in Computer Engineering** · 2023–2026

CHARUSAT University, Anand | CGPA: 9.07/10

**Diploma in Computer Engineering** · 2020–2023

A.V. Parekh Technical Institute, Rajkot | CGPA: 9.89/10 · Top 10 Merit Award
